## PRO-TEK SHIELD

VERSATILE LONG-TERM RUST PREVENTIVE

### DESCRIPTION

Pro-Tek Shield is a highly effective solvent based, rust preventive designed to provide excellent long-term outdoor and indoor protection. When applied, this formulation will leave a greasy, self-healing protective film. Pro-Tek Shield is ideal for the most demanding applications where long-term effective protection is desired and is generally recommended for use on all metallic surfaces. Pro-Tek Shield can protect parts indefinitely for indoor applications and up to 4 years outdoors with excellent resistance to humid, salt spray and acid atmospheric environments.

### PROPERTIES

Appearance:	Dark brown liquid
Film Type:	Waxy
Dry Time @20°C:	N/A
Odor:	Hydrocarbon
Film Thickness:	0.6-1.2 micron
Density lbs/gal:	7.0
Indoor Protection:	Indefinite
Outdoor Protection:	Up to 4 years (covered)
Flash Point:	105°F
Water Displacing:	Yes
Paintable/Weldable:	No

### FEATURES & BENEFITS

- Versatile protective needs uses
- Excellent outdoor uncovered protection
- Malleable film finish insures consistent and reliable protection
- Highly resistant to salt spray environments
- Excellent for extended box and ship applications
- Does not contain chlorinated solvents

### HEALTH AND SAFETY

See the most recent SDS which is available directly from ValCOOL, your local representative or authorized distributor. ValCOOL uses only raw materials not listed as carcinogenic by IRAC.

### APPLICATION

Apply product as is by brush or sprayer to all surfaces needing protection. Pay particular attention to cracks and crevices. Apply additional coats for added storage time and protection. Drying time is influenced by temperature, relative humidity and air circulation. Remove product with solvent or alkaline cleaner.
