

VAL-SWISS

For the unique challenges of Swiss machining, ValCOOL manufactures a line of oils to cover the entire market. With Val-Swiss, a product for your application exists: from our ultra pure 100% ester chemistries, our value driven oil blends, to our hydrotreated petroleum technologies. Products are available in ISO 10 or ISO 22 viscosities. All Val-Swiss products contain our proprietary Zyretol additive package to assure lubricity and tool protection are at a premium.
